CPIT is committed to working with the industries, professions and communities we serve. One way of achieving this is through Programme Advisory Committees or Consultation Networks, listed below. Each programme is supported by a group, of varying sizes and composition depending on the needs of that programme. The Chair appointed by the group, is usually external to the Institution. Most groups include student or former student representation, as well as staff representatives (whose names are not included). The members listed have given their permission to publish their names in the CPIT Annual Report. We are grateful for their support and appreciate their input throughout the year.
