3.3 Utilisation of Vehicles and Trailers

- a In order to ensure full utilisation of all pool vehicles, allocation will be made on the following basis:
 - i Vehicles will be obtained/made available by Facilities Management, with the full utilisation of pool vehicles taking priority.
 - ii If a pool vehicle is unavailable all cost effective alternatives are to be considered (eg taxi, bus) before rental vehicles will be booked. If no alternatives are viable a rental vehicle will be provided via Facilities Management, using an Ara preferred supplier.
- b The Facilities Management procedure for booking, collecting and returning vehicles is to be followed. Refer Infoweb or contact the Facilities Service Centre.
- c Access to pool trailers is via Facilities Management. Departments operating their own trailers are required to meet associated costs from their respective budgets.
- d All pool vehicles are to be stored on campus overnight in the Facilities Management designated areas.
- e All pool and fleet vehicles must be returned to Facilities Management and securely locked away during the Christmas period when Ara is officially closed.

3.4 Vehicle Charges

- a Costs for all pool and fleet vehicles and trailers are covered by Facilities Management.
- b Costs for rental vehicles, when an Ara vehicle is not available, will be paid by Facilities Management.
- c Fuel for all pool and fleet vehicles is to be obtained using an Ara preferred supplier and via the process documented by Facilities Management. Rental vehicles are to be fully refuelled using an Ara preferred supplier prior to being returned to Facilities Management. The Facilities Service Centre will provide the driver with a fuel card for refuelling vehicles. A receipt for the cost of fuel is to be returned to the Facilities Service Centre.

3.5 Maintenance, Damage, Accidents and Security

- a Facilities Management is responsible for the maintenance, repair and legal compliance requirements for all vehicles in the Ara fleet.
- b It is the driver's responsibility to report any problems arising with fleet vehicles (including accidents or damage) to the Facilities Service Centre as soon as possible.
- c In the event of a breakdown or accident, please contact the Facilities Service Centre.
- d If involved in an accident:
 - i Never admit liability at the scene of the accident.
 - ii Collect details (ie car registration number/name/insurance company name) of the other vehicle(s) involved, along with details of any witnesses, and pass on to the Facilities Service Centre.
 - iii The driver is required to advise their line manager as soon as possible.
 - iv The driver is required to advise the Facilities Service Centre and complete an insurance claim form. If Ara is found responsible for the accident, the driver's Department will be liable for the insurance excess.
- e All rubbish must be removed from the vehicle when it is returned.
- f Cleaning of vehicles will be carried out regularly by Facilities Management. Vehicles are expected to be returned by users in a condition fit for the next person. - b Where a private vehicle has been used, the rate reimbursed will be that specified in the employee's employment agreement. If a rate is not specified, this will be paid in line with the Inland Revenue mileage rate (refer to <http://www.ird.govt.nz/business-income-tax/expenses/mileage-rates/#02>).

Other than this "incidental" private use, pool car bookings will only be accepted where the use is 100% business travel.
